## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Jefferson Center Metropolitan District No. 1  
Jefferson County, Colorado

We have audited the accompanying financial statements of the governmental activities and each major fund of Jefferson Center Metropolitan District No. 1 (the District) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Jefferson Center Metropolitan District No. 1, as of December 31, 2018, and the respective changes in financial position thereof, and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information as listed in the table of contents is presented for purposes of legal compliance and additional analysis and is not a required part of the basic financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The continuing disclosure obligation information as listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## Notes to Financial Statements December 31, 2018

### Note 1: Summary of Significant Accounting Policies

The accounting policies of the Jefferson Center Metropolitan District No. 1, located in Jefferson County, Colorado, conform to the accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies consistently applied in the preparation of financial statements.

#### Definition of Reporting Entity

The District was organized on October 25, 1989, as a quasi-municipal corporation established under the State of Colorado Special District Act. The District, along with Jefferson Center Metropolitan District No. 2, Vauxmont Metropolitan District, Cimarron Metropolitan District, Canyon Pines Metropolitan District, and Mountain Shadows Metropolitan District ("MSMD") (collectively, the "Districts"), each of which was organized in 2004, serve a service area which is located primarily in the City of Arvada, with some portions outside the City in unincorporated Jefferson County. The Districts were established to finance and construct water, sanitary and storm sewer, streets, limited fire protection services, park and recreation, safety protection, mosquito control, television relay and transmission, and transportation facilities and services. Jefferson Center Metropolitan District No. 2 (the "Service District") is responsible for managing the financing, construction, operation and maintenance of certain regional improvements to benefit the service area as well as providing certain administrative services for the Districts. The District, Vauxmont Metropolitan District, Cimarron Metropolitan District, Canyon Pines Metropolitan District, and MSMD (the "Financing Districts") are responsible for providing certain funding needed to support the Service District's provision of services. The District's primary revenues are property taxes. The District is governed by an elected Board of Directors.

As required by GAAP, these financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows the GASB Pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is not financially accountable for any other organization. The District has no component units as defined by the GASB.

# JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

## Notes to Financial Statements December 31, 2018

The District has no employees and all operations and administrative functions are contracted.

### Basis of Presentation

The accompanying financial statements are presented per GASB Statement No. 34 - Special Purpose Governments.

The government-wide financial statements (i.e. the governmental funds balance sheet/statement of net position and the governmental funds statement of revenues, expenditures, and changes in fund balances/statement of activities) report information on all of the governmental activities of the District. The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position. The statement of activities demonstrates the degree to which expenditures/expenses of the governmental funds are supported by general revenues. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are collected.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The material sources of revenue subject to accrual are property taxes and interest. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is paid.

## JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

### Notes to Financial Statements December 31, 2018

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources not accounted for and reported in another fund.

Debt Service Fund – The Debt Service Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for principal, interest and other debt related costs.

Capital Projects Fund – The Capital Projects Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other assets.

#### Budgetary Accounting

Budgets are adopted on a non-GAAP basis for the governmental funds. In accordance with the State Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. The appropriation is at the total fund expenditures level and lapses at year end.

On October 23, 2018, the District amended its total appropriations in the Debt Service Fund from \$4,084,893 to \$3,977,548 primarily due to the decrease in the overlapping AURA increment mill levies.

#### Assets, Liabilities and Net Position

##### Fair Value of Financial Instruments

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of all financial instruments at December 31, 2018, does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

##### Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and short-term investments with maturities of three months or less from the date of acquisition. Investments for the government are reported at fair value.

## JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

### Notes to Financial Statements December 31, 2018

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a minimum number of bank accounts. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

#### Estimates

The preparation of these financial statements in conformity with GAAP requires the District management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District does not have any items that qualify for reporting under this section at December 31, 2018.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Deferred property taxes are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### Original Issue Discount

Original issue discount from the Series 2015 and 2017 Bonds are being amortized over the respective terms of the bonds using the interest/straight-line method. Accumulated amortization of original issue discount amounted to \$45,032 at December 31, 2018.

#### Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

## JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

### Notes to Financial Statements December 31, 2018

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable using the straight-line method. Depreciation on property that will remain assets of the District is reported on the Statement of Activities as a current charge. Improvements that will be conveyed to other governmental entities are classified as construction in progress and are not depreciated.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure and buildings	20-50 years
Other capital assets	5-20 years

#### Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available nor are they budgeted as a resource until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

#### Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

#### Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

### Nonspendable Fund Balance

Nonspendable fund balance includes amounts that cannot be spent because they are either not spendable in form (such as inventory or prepaids) or are legally or contractually required to be maintained intact.

The nonspendable fund balance in the General Fund in the amount of \$4,313 represents prepaid expenditures.

### Restricted Fund Balance

The restricted fund balance includes amounts restricted for a specific purpose by external parties such as grantors, bondholders, constitutional provisions or enabling legislation.

The restricted fund balance in the General Fund represents Emergency Reserves that have been provided as required by Article X, Section 20 of the Constitution of the State of Colorado. A total of \$3,826 of the General Fund balance has been restricted in compliance with this requirement.

The restricted fund balance in the Debt Service Fund in the amount of \$3,661,053 is restricted for the payment of the debt service costs associated with the Refunding Revenue Bonds, Series 2015 and Revenue Completion Bonds Series 2017 (see Note 4).

The restricted fund balance in the Capital Projects Fund in the amount of \$1,575,229 is restricted for the payment of the costs for capital improvements within the District.

### Committed Fund Balance

The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

### Assigned Fund Balance

Assigned fund balance includes amounts the District intends to use for a specific purpose. Intent can be expressed by the District's Board of Directors or by an official or body to which the Board of Directors delegates the authority.

The assigned fund balance in the General Fund represents the amount appropriated for use in the budget for the year ending December 31, 2019.

### Unassigned Fund Balance

Unassigned fund balance includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund, all other funds can report negative amounts.

# JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

## Notes to Financial Statements December 31, 2018

For the classification of Governmental Fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available.

### Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

### Note 2: Cash and Investments

As of December 31, 2018, cash and investments are classified in the accompanying financial statements as follows:

#### Deposits

##### Custodial Credit Risk

The Colorado Public Deposit Protection Act, (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. State regulators determine eligibility. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

The District follows state statutes for deposits. None of the District’s deposits were exposed to custodial credit risk.

#### Investments

##### Investment Valuation

Certain investments are measured at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District’s investments are not required to be categorized within the fair value hierarchy. This investments’ values are calculated using the net asset value method (NAV) per share.

As of December 31, 2018, the District had the following investments:

##### Morgan Stanley Institutional Liquidity Fund

The Morgan Stanley Institutional Liquidity Fund (“MSILF”) is rated AAAm by Standard & Poor’s and the maturity is weighted average under 32 days. MSILF records its investments at fair value and the District records its investment in MSILF using the net asset value method. The fund is a money market fund with each share maintaining a value of \$1.00. The money market fund invests in high quality debt securities issued by the U.S. Government. At December 31, 2018, the District had \$3,162 invested in the MSILF held by a trustee.

### Notes to Financial Statements December 31, 2018

#### COLOTRUST

The local government investment pool, Colorado Local Government Liquid Asset Trust (“COLOTRUST”) is rated AAAM by Standard & Poor’s with a weighted average maturity of under 60 days. COLOTRUST is an investment trust/joint ventures established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST using the net asset value method. The trusts operate similarly to a money market fund with each share maintaining a value of \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both investments consist of U.S. Treasury bills and notes and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. Designated custodian banks provide safekeeping and depository services to the trusts. Substantially all securities owned by the trusts are held by the Federal Reserve Bank in the accounts maintained for the custodian banks. The custodians’ internal records identify the investments owned by COLOTRUST. At December 31, 2018, the District had \$5,539,526 invested in COLOTRUST, of which \$3,610,324 is held in trust accounts with UMB Bank.

#### Credit Risk

The District investment policy requires that the District follow state statutes for investments. Colorado statutes specify the types of investments meeting defined rating and risk criteria in which local governments may invest. These investments include obligations of the United States and certain U.S. Government agency entities, certain money market funds, guaranteed investment contracts, and local government investment pools.

#### Custodial and Concentration of Credit Risk

None of the District’s investments are subject to custodial or concentration of credit risk.

#### Interest Rate Risk

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors.

### Note 7: Related Party

All of the Board of Directors are employees, owners or are otherwise associated with the developers of the property within the District's service area and may have conflicts of interest in dealing with the District. Management believes that all potential conflicts, if any, have been disclosed by the Board.

### Note 8: Tax, Spending and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer Bill of Rights ("TABOR") contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

On May 7, 1996, the District's electors authorized the District to retain up to \$200,000 of revenue collected in the years 1993 through 1995 and \$500,000 in 1996 and thereafter, plus any additional amounts collected as revenue, loans and advances from District property owners and other private parties and other revenue derived from any District facilities or properties without any limitations under TABOR. In addition, the District was authorized to increase property taxes by \$500,000 annually, without any limitation on rate, for the purpose of paying District operations maintenance, capital and other lawful expenses and to collect and retain the tax proceeds and investment income earned thereon without any limitations under TABOR or Section 29-1-301, C.R.S.

## JEFFERSON CENTER METROPOLITAN DISTRICT NO. 1

### Notes to Financial Statements December 31, 2018

On May 4, 2004, the District's electors authorized the District to increase taxes \$100,000 annually or such lesser amount as necessary, without limitation as to rate and thereafter for as long as the District continued in existence, to pay the District's administration, operations, maintenance, landscape maintenance, and other expenses, without regard to any spending, revenue raising, or other limitation contained within Article X, Section 20 of the Constitution or Section 29-1-301, C.R.S. or any other law which purports to limit the District's revenues or expenditures, and without limiting in any year the amount of other revenues that may be collected and spent by the District.

#### Note 9: Risk Management

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool ("Pool") which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for auto, public officials' liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

#### Note 10: Debt Authorization

After elections held in 2004, the District had voted debt authorization of \$4,500,000,000. However all of the Districts (as defined in Note 1 above) are limited by their respective Service Plans and by the FFCO to issuing \$450,000,000 of total aggregate debt. Also pursuant to the FFCO, the District is limited to issuing \$281,000,000 of debt. The Capital Pledge Agreement with the Service District allocated \$40,000,000 of the District's debt limit, leaving a remaining authorization of \$241,000,000 as of December 31, 2012. On June 11, 2015, the FFCO was amended to reflect a remaining authorization of \$262,475,000 for the District. As of December 31, 2018, the District had remaining authorization of \$221,486,000. If debt is issued to the maximum amounts permitted under the various District agreements and the 2010B Subordinate Note, the District will have utilized all of its voted debt authorization. The District has budgeted to issue new debt during 2019 in the amount of \$15,000,000.
